Godutai Doddappa Appa Arts, Commerce and Science College for Women, Kalaburagi 2023 - 24 Students Academy or portfolio report

This year student academic portfolio compiles and reflects the academic achievements, progress, and key learning outcomes from the Under graduate for the 2023-24 academic year. It includes both individual and collective contributions from students, showcasing various aspects of their learning journeys. The portfolio aims to provide a comprehensive snapshot of the class's strengths, growth areas, and overall educational development.

This year, our students have continued to shine academically. "Our student secured 5th rank top positions in Karnataka state Akkamahadevi Womens University examinations, many of] students earning distinctions and many of achieving first-class honors. We also introduced new workshops and skill-based certificate courses to enhance learning and career

This section highlights students' involvement in extracurricular activities and how these contributed to their academic growth:

Debate Club: Students developed critical thinking and public speaking skills. Many students reported improved writing and research abilities.

Science Club: Participating in science fairs and experiments, with a special mention of the class-wide interest in sustainable energy solutions.

Sports: Several students participated in sports teams, such as kho-kho, which taught leadership, teamwork, and time management. Trends in Skill Development. One of the student Kum. Damini secured Gold medal in Karate

Across the class, we've observed several key trends in skill development:

- **Writing Skills:** Significant improvement in structuring essays and research papers.
- **Critical Thinking and Problem-Solving:** Strong progress in applying concepts to real-world situations, particularly in mathematics and science.

Collaboration and Teamwork: Effective in group projects, though some students need improvement in group dynamics and time management. Reflections on Growth and Progress

The class has made notable progress in several key areas:

- **Personal Growth:** Students have matured in their ability to self-assess and work collaboratively, demonstrated in group projects.
- **Academic Growth:** The focus on interdisciplinary learning has allowed students to see connections between subjects and approach problems from different angles.
- **Teacher's Reflection:** As the instructor, I have seen significant improvement in students' ability to reflect on their work, collaborate effectively, and apply knowledge in creative ways.
